(b) the funds allocated/proposed to be allocated to each State for the purpose during the said period;

(c) the estimated cost and the power generation capacity of each of such projects; and

(d) the time by which the work on these projects is likely to be commenced?

Answer

THE MINISTER OF POWER (SHRI P.M. SAYEED)

(a) to (d) : As per the Electricity Act,2003, the requirement of according Techno- economic Clearance by Central Electricity Authority (CEA) has been dispensed with for thermal generation. However, any generating company intending to set up a hydro generating station shall prepare and submit to the Authority for its concurrence, a scheme estimated to involve a capital expenditure exceeding such sum, as may be fixed by the Central Government from time to time, by Notification.

Planning Commission has delegated full powers to State Governments for approval of power projects without any ceiling. Clearance from Planning Commission is to be restricted only to those hydro-electric projects where inter-State issues are involved.

Five Hydro Electric Schemes in public sector with an aggregate installed capacity of 1387 MW accorded concurrence by CEA during 2004-05 and current financial year till date. The details regarding project-wise estimated cost, power generation capacity and annual energy generation are annexed. Commencement of work at Main Plant is subject to investment approval.
